

October 5, 2010

Dear Eastern US Route 60 Stakeholder:

Enclosed for your reference is the agenda for the next Eastern US Route 60 Stakeholders meeting to be held at **5:00PM on Monday, October 18 at the Huguenot Volunteer Fire Department (1922 Urbine Road).**

We will follow a format similar to our May meeting with opening remarks from Supervisor Joe Walton (District 1) and brief reports from the County's Planning Director (Brandon Stidham), Economic Development Director (Sherry Swinson), and Utilities/General Services Director (Christopher Rapp). Following these presentations, we will work to establish three focused discussion groups that will hold future workshops on topics that the stakeholders have identified as the most critical issues that are affecting the corridor:

1. Transportation and interconnectivity issues
2. Public water and sewer issues
3. Future commercial and residential development issues

The meeting will conclude with an open question and answer session for Mr. Walton and County staff as well as a discussion of the next series of meetings.

If you have specific questions, please do not hesitate to contact us at the following numbers:

Planning & Community Development (Brandon Stidham) – 598-5621

Economic Development (Sherry Swinson) – 598-5605

Utilities General Services (Christopher Rapp) – 598-5764

Thank you for taking an interest in the future of Powhatan and the Eastern US Route 60 Corridor!
